CUTTING- EDGE FACILITIES

Opening in Autumn 2007, our new purpose-built Study Centre will be the new central Brighton home to both **Bellerbys College** and **Embassy CES**. It will set new standards of excellence for teaching, social and residential facilities. Put simply, it is the best new facility for international students in Britain.

Set in a contemporary, cutting-edge and environmentally-friendly building, the centre features four floors of teaching space, including 62 classrooms, science laboratories, art studios and a state-of-the-art library.

Also within the centre are five floors of residential accommodation, linked to the main Study Centre by an enclosed glass bridge. The residence features 375 single, en suite bedrooms, plus limited shared rooms with separate common rooms on each floor.

Our new centre is set in the heart of Brighton, just a few minutes from the unique North Laine area with its fashionable shops, restaurants and entertainment venues. It is very close to Brighton station and other key transport links.

SUPERB STUDENT RESIDENCE

The on-site student residence provides a new standard of comfort and convenience. Spread over 7,100 square metres and five floors, the residence is bright, attractive and contemporary. Each of the 375 single bedrooms includes en suite facilities and wireless internet connection. There are also a few shared en suite rooms available. Individual student common rooms are located on each floor, and live-in supervisors will be available to assist with any problems or queries.

GREAT SOCIAL FACILITIES

The heart of the social facility at the new centre is the huge, main student common room situated near the cafeteria. It has plenty of sofas for students to relax and chat with their friends. It's also a great place to socialise – whether watching the latest Premiership football match on the large plasma TV or perhaps a DVD. There are plenty of vending machines in the common room to cater for students' day-to-day needs.

The internet café is right next door to the common room. It is equipped with 50 PCs and provides a great place for students to keep up to date with their emails, or simply browse the internet.

TOP-CLASS CATERING

The bright, spacious cafeteria offers breakfast, lunch and dinner, with hotel-quality catering offering a wide range of choices including halal. It can cater for up to 220 at any one time and is split into two distinct zones; the lower level has a café-like feel and the atrium area even offers fresh coffee and snacks from the coffee cart. The upper level has a more restaurant-like ambience and is a great place to spend a bit more time enjoying the fine food on offer. There is also an outside courtyard area where students can enjoy their food when the sun is shining.
